

FIBER NETWORK MONITORING AND MANAGEMENT PRODUCT GROUP: ADVANCED USER PROGRAM – FNMM

Become a fiber network monitoring and management (FNMM) product partner

As a leading solutions provider, it is in our interest to meet your ever-changing requirements, especially with regard to fiber network operation and maintenance technologies, standard operating procedures, integration options, and everything else that makes your business challenging on a daily basis.

We invite you to contribute to creating more networking opportunities within our FNMM user community, through which you can share your experiences using our solution. Such exchanges enable all interested parties to benefit from each others' business environments, observations and ideas, in addition to accessing solutions that address specific challenges. By becoming an associate or expert user of any of our FNMM products, you'll have the opportunity to directly contribute to making our solutions more relevant to your operations—both now and in the future.

Our mutual promises

The FNMM product-partner designation demonstrates your level of expertise and achievement in utilizing our product(s), and will be displayed to other potential and current users. The program will also be customized on an ongoing basis in order to better meet your needs. The following terms outline the definitions of “associate” and “expert” user, in addition to the responsibilities of both parties:

EXFO's Pledge to You ¹	Associate User	Expert User
Free web-based user-training sessions (minimum of four (4) per year) hosted by product experts and related to the use of various solutions, including key concepts, tips and best practices. These events are only available to the user community, and are held in three different time zones.	•	•
The partner is authorized to use the EXFO logo ² on its website under a Technology Partner or similar type of page.	•	•
Free access to and remote activation of the NQMS <i>fiber</i> Mobile Web UI option.	•	•
On-premise visit (minimum one-day visit) conducted by a product expert to determine the best possible use of the solution. A roadmap presentation is provided during the visit, and discussions will be held regarding any required improvements or integrations.		•
Firsthand access to new releases and service packs for timely feedback on new features and general enhancements.		•
During each on-site visit (see below), the user receives a voucher ³ towards the future purchase of any FNMM test equipment, software or services equivalent to the amount of \$5,000 USD.		•

Your Pledge to EXFO	Associate User	Expert User
The user's company grants EXFO Inc., and/or any of its wholly-owned subsidiaries, the authorization to publicly identify its company as a user of FNMM product(s), thereby confirming that said user is utilizing it/them on a regular basis. At the same, the user grants EXFO authorization to produce and distribute testimonials ⁴ to its active or prospective customers, whether orally or in writing, in hard copy, digital or any other format, including but not limited to distribution on the Internet in the form of company news and/or case studies.	•	•
Subject to at least one month's prior notice, the user agrees to accept an on-site visit at its premises from a current or prospective user of FNMM products, who will present, demonstrate and discuss his or her experience utilizing the product with the support of EXFO's local support team. The maximum number of visits is one (1) per six-month period.		•

¹ Assumes that your company is actively enrolled in an FNMM support and maintenance plan (Silver, Gold, etc.).

² Use of the EXFO logo must be in accordance with the Graphical Guidelines set forth by EXFO's Marketing Department regarding use of the corporate logo. These Guidelines are available upon request.

³ Must be used within 12 months of the issue date on a single order with a minimum value of US\$10,000 (before rebate).

⁴ EXFO will submit a testimonial or case study to the user for review and acceptance, and wait for e-mail confirmation of approval prior to publication.
