FIP-500 SmartTips

Fastest inspection in the industry for duplex, single-fiber, and multi-fiber connectors.

Did you know? 

By tapping your SmartTip on the FIP-500, pass/fail thresholds will be automatically adjusted to the type of connector under test. This remarkable level of automation prevents threshold selection mistakes, making fiber inspection easier than ever!

Innovative quick-connect mechanism

Swap tips in a quarter-turn click—a game-changing innovation. No loose parts, not a second wasted. Tip switching can be done with one hand, if needed. It has never been easier to swap between single-fiber, duplex and multi-fiber tips.
